- Data Loggers
- Ethernet I/O and PACs
- Industrial PC's
- Keyboards
- Labels
- Monitors
- Panel PC's
- Pointing devices
- Portable labelprinters
- Safety & Security Identification
- Wire trays

See next page

Mulder-Hardenberg has several specialties that can assist our maritime customers with their projects. For each of these specialties our product experts are glad to assist you with any project or question you might have:

- Cable Management
- Human/Machine Interface
- Labeling
- Monitoring & Control

In the past Mulder-Hardenberg has worked together with a lot of different maritime customers to help them with their challenges. See our related cases for some of the projects we've implemented for our customers:

**Custom made solution for Dredging International**

Five monitors on board of the ship need to be replaced on Dredging International's high tech dredger 'Nile River'.

**New monitors for the Air Defence and Command Frigates**

The Dutch Royal Navy is an ultra-modern, dynamic business in which innovation plays an essential role.

**Radar systems resistant to large differences in temperatures**

The radar system on board a naval vessel is subject to heavy treatment.
